Progress Report Instructions

Before writing your progress report, you should have met with your TA and talked through your progress.

Team contributions

Please describe in one paragraph (3–4 sentences) per team member what each of you contributed to the project so far.

Person 1 Though the large majority of our work so far has been done together, Team Member 1 took charge of initiating both writing our project proposal and the project proposal evaluation for the other team. Team Member 1 contributed lots of ideas when we were brainstorming our initial final project idea and their background of deep learning was particularly useful in this brainstorm. This member also took charge of setting up the repository.

Person 2 Team Member 2 contributed to writing the project proposal and evaluation as well. They spearheaded finding the dataset to be used and the challenge of importing all the data to the Github (which proved to be difficult because of the sheer quantity we had).

Person 3 Team Member 3 contributed to all the above manners as well. This member spearheaded scheduling sessions to work together as a team as well as to meet with the TA. In tandem with Team Member 2, this team member helped resolve the data problem.
